## RESIDENTIAL SERVICES

BBD Pest Service recognizes having pests in the home can create health problems, and make you feel afraid and unsettled.

Our quick-response customer service team will schedule an experienced pest control technician who will work together with you to control and eliminate your pest problem and give you peace of mind in your home.

**We offer pest control solutions for**

- Apartment & Condominium Complex
- Residential Homes
- Residential Care Facilities

## COMMERCIAL SERVICES

BBD understands that pests in a workplace can pose health, safety, and financial risks to staff and clients.

One call to our dedicated service team and a trained pest control technician will visit your sites, assess the problem, and create a work plan to rectify it.

BBD offers an annual workplace plan "Healthy Workplace" which allows our commercial clients to proactively manage pests in the workplace while focusing on their business.

Thank you for providing the Maritimes with a non-chemical treatment option. As far as I know, you guys are the only ones with thermal treatment and it is at a reasonable price. I slept better these past couple nights after having the canine inspection done; I can tell you guys are hard workers, and put your all into this business. Your dogs are very well trained and it's amazing to see!

- JC, Dartmouth

We have nothing but admiration for Pamela and Brian. Not only are they efficient and thorough, but also compassionate and discreet. Their dogs are absolutely remarkable. I would strongly recommend them to anyone!

- Peter, Halifax
